

Northwind Labs - Seed deck

Modular battery packs for light electric vehicles

Founded 2025, prototype in field trials with two fleet operators

Team: CEO (power electronics), CTO (embedded software)

The raise

Raising EUR 2.0m seed to fund pilot production in 2027

Runway today: 9 months at the current burn of EUR 45k per month

Traction: two supplier letters of intent, no revenue yet

Use of funds: 55 percent hardware, 30 percent team, 15 percent certification
